SECTION 3. COMPOSITION/INFORMATION ON INGREDIENTS

Mixtures			
Name	Product Identifier	% wt	GHS MX Classification
Petroleum distillates	*	*	Asp. Tox. 1, H304
Hydrocarbon-based solvent	*	*	Flam. Liq. 1, H224 Acute Tox. 5 (Dermal), H313 Asp. Tox. 1, H304
Isopropyl alcohol	(CAS-No.) 67-63-0	10 - 30	Flam. Liq. 2, H225 Eye Irrit. 2, H319 STOT SE 3, H336

*Chemical name, CAS number and/or exact concentration have been withheld as a trade secret.

SECTION 4. FIRST-AID MEASURES

Description of first aid measures

First-aid measures after inhalation	: If breathing is difficult, remove victim to fresh air and keep at rest in a position comfortable for breathing. Get medical advice/attention if you feel unwell.
First-aid measures after skin contact	: If on skin (or hair): Take off immediately all contaminated clothing. Rinse skin with water/shower. Wash clothing before re-using. Get medical attention if irritation develops and persists.
First-aid measures after eye contact	: IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists: Get medical advice/attention.
First-aid measures after ingestion	: IF SWALLOWED: Immediately call a POISON CENTER/doctor. Do NOT induce vomiting. Never give anything by mouth to an unconscious person.

Most important symptoms and effects, both acute and delayed

Symptoms/effects after inhalation	: May cause irritation to the respiratory tract.
Symptoms/effects after skin contact	: May cause skin irritation. Repeated exposure may cause skin dryness or cracking.
Symptoms/effects after eye contact	: Causes serious eye irritation. Symptoms may include discomfort or pain, excess blinking and tear production, with marked redness and swelling of the conjunctiva.
Symptoms/effects after ingestion	: May be fatal if swallowed and enters airways. May result in aspiration into the lungs, causing chemical pneumonia.

Immediate medical attention and special treatment, if necessary

Other medical advice or treatment : Symptoms may be delayed. In case of accident or if you feel unwell, seek medical advice immediately (show the label where possible).

SECTION 5. FIRE-FIGHTING MEASURES			
Extinguishing media			
Suitable extinguishing media	: Carbon dioxide (CO2). Dry chemical. Foam. Water fog.		
Unsuitable extinguishing media	: Do not use a solid water stream as it may scatter and spread fire.		
Special hazards arising from the substance of	or mixture / Conditions of flammability		
Fire hazard	: Highly flammable liquid and vapor. Products of combustion may include, and are not limited to: oxides of carbon. Nitrogen oxides. Sulfur oxides. Other unidentified organic compounds. Toxic and irritating gases are released. Will float and can be reignited on water surface.		
Explosion hazard	: May form flammable/explosive vapor-air mixture. Heavier than air, vapors may travel long distances along ground, ignite and flash back to source.		
Reactivity	: No dangerous reactions known under normal conditions of use.		
Special protective equipment and precaution	ns for fire-fighters		
Firefighting instructions	: Use water spray to cool exposed surfaces.		
Protection during firefighting	: Keep upwind of fire. Wear full fire-fighting turn-out gear (full Bunker gear) and respiratory protection (SCBA).		

SECTION 6. ACCIDENTAL RELEASE MEASURES

Personal precautions, protective equipment and emergency procedures

Sea Joam.

pH:	
No data available.	

SECTION 10. STABILITY AND REACTIVITY		
Reactivity	: No dangerous reactions known under normal conditions of use.	
Chemical stability	: Stable under normal conditions. May form flammable/explosive vapor-air mixture.	
Possibility of hazardous reactions	: No dangerous reactions known under normal conditions of use.	
Conditions to avoid	: Heat. Incompatible materials. Sources of ignition. Direct sunlight.	
Incompatible materials	: Strong oxidizing agents. Strong acids. Strong bases.	
Hazardous decomposition products	: May include, and are not limited to: oxides of carbon. May release flammable gases.	

SECTION 11. TOXICOLOGICAL INFO	DRMATION	
Other information	: Likely routes of exposure: ingestion, inhalation, skin, and eye.	
Information on toxicological effects		
Acute toxicity (oral)	: Not classified.	
Acute toxicity (dermal)	: Not classified.	
Acute toxicity (inhalation)	: Not classified.	
Unknown acute toxicity (GHS MX)	: 51.99% of the mixture consists of ingredient(s) of unknown acute toxicity (Inhalation (Vapors))	
Petroleum distillates		
LD50 oral rat	> 5000 mg/kg	
LD50 dermal rabbit	> 5000 mg/kg	

LOAEL (oral, rate, 90 days)	125 mg/kg bodyweight (OECD Guideline 408)
Hydrocarbon-based solvent	
LD50 oral rat	5170 mg/kg
LD50 dermal rabbit	> 3160 mg/kg
LC50 inhalation rat	73680 ppm/4h

Seafoam
